President's Report,

Dear Colleagues,

Things have been relatively quite since the last teleconference.

- Talked with our lobbyist Clark Gruening about next year's legislative priorities and campaign by Alaska Historical Society to secure funding for SLAM next year.
- Participated in another session of the governor's broadband task force and attended public hearing held by commissioner of the FCC during his visit to Alaska. The mission of the task force is to encourage adoption of broadband throughout the state.
- Attended Electronic resources summit held by ALN and the state library.
- Performed administrative duties, including signing ILC grant forms, etc.

Thank you,

-Mike Robinson
